Whether you're looking for an internationally recognized language qualification, a short, fun overseas adventure, or a full year of intensive study, our courses are designed to help you achieve your goals – and enrich your life.

LEARN ANOTHER LANGUAGE: OPEN UP OPPORTUNITIES

Speaking another language is like owning a magic key that lets you explore, work and make friends in places that you might otherwise never have been able to enter.

DID YOU KNOW?

- Bilinguals can focus more easily and multitask more effectively than their monolingual counterparts¹
- More than a third of positions advertised by Bank of America in 2015 were for bilingual workers²

When you can speak another language, the future you want is within your reach. And with Kaplan, you'll receive guidance and support on your journey.

LANGUAGE ALL AROUND: MAKE FAST PROGRESS

Many of our programs will allow you to study your chosen language in the country where it's spoken, meaning you'll be plunged straight into a new language. All lessons and social activities will be conducted entirely in the language you're studying, so you'll learn through daily exposure to the living language.

Last year our schools welcomed students from 150 countries. As you explore your chosen destination with our exciting range of tours and activities, you'll be using the language you've learned in the classroom to talk to your new friends. You'll be amazed how fast you can learn, living in an exciting new destination as part of a welcoming international community.

KITE ADAPTIVE ONLINE ASSESSMENT

Kaplan's International Test of English (KITE) is an advanced testing system which adapts to your responses, adjusting the difficulty of the questions as you go along to build a highly accurate impression of your strengths and weaknesses. Understanding your needs allows us to place you in the correct class and fine-tune your learning experience. We can even assess your English proficiency with KITE before you leave home, on arrival at our school, and when you may be ready to move up a level.

HOW ARE THE TESTS SCORED?

KITE uses a sophisticated software engine to assess your strengths and weaknesses in each section.

HOW ARE THE TESTS SCORED?

The Speaking and Writing sections of your KITE test are scored by trained professionals using rating scales aligned to CEFR levels.

KAPLAN'S GUARANTEED PROGRESS

We're so confident in our teaching methods that on selected English courses in the US, UK, Ireland and Canada, we'll make you a promise. Study with us for 10 weeks; attend classes and complete assignments as instructed – and you will advance at least one proficiency level. Not only that, but if you meet our requirements and don't reach that goal, we offer four weeks of extra tuition free.

OUTSTANDING LEVEL-TO-LEVEL PROGRESS

Not all language schools are the same. We're not the only school to offer some form of guaranteed progress. But we're being very specific about what you will achieve. We're not just saying that you will know a few more words, or be a little bit more confident. We're promising a measurable and meaningful improvement: 10 weeks with us – at least one proficiency level.

DESIGNED FOR SUCCESS

Our proficiency levels aren't made up to fit our courses: each of our six levels is aligned to the Common European Framework of Reference for Languages (CEFR) standards of learning. So when we assess your English, you'll know exactly what your grade means and how much your progress counts.

Can you only advance by one level every ten weeks? Of course not. Many of our students progress much faster and some need a little more time. While we can't promise you'll be one of the highest speed learners, we can guarantee that every ten weeks, if you've done your part and we've done ours, you'll see results that mean something or we'll offer you our Guaranteed Progress promise.

DEBORAH HOMESTEAD

Teacher, Huntington Beach

"I have been a teacher at Kaplan for nearly twelve years. I am currently teaching the Intermediate level, which includes seven specific skill sets (grammar, vocabulary, reading, writing, listening, speaking and pronunciation.) My colleagues are an outstanding, committed, and creative group of individuals. We have great, longstanding relationships with each other as well as with the administrative staff."

FLAVIUS AKERELE

Academic Manager, San Diego

"The main gist of my job is to make sure we are academically sound, and that the teachers and students are having a great academic experience. Students come to a school because of great teaching and teachers, and I'm a firm believer that San Diego is an embodiment of this."

JARED GRUNWALD

Teacher, Adelaide

"In addition to teaching English, I also regularly oversee KITE tests, run clubs for students, participate in and lead school events. It is really satisfying when you can see actual improvement in students on a day-by-day basis, which honestly makes you feel like you're making a difference in people's lives."

SARAH SHINNICK

Principal, Manchester

"I have been working with international students for over 20 years now. I love the fact that I'm still learning something new nearly every day about all the different countries our students come from. I make sure I say hello to all the new students starting every Monday and introduce them to my wonderful team who are available to help students feel part of our community as quickly as possible."

SOFI BACON

Regional Accommodation Manager, Oxford and Cambridge

"I arrange accommodation for students in our residences or homestays, or offer advice when they choose private accommodation. Our hosts are great! Many of them have been with us for many years and provide the students with supportive environments to learn in."

STUDENT SUCCESS STORIES

English can open doors to an exciting job, an international career, opportunities for world travel, or further education at an English-speaking university. Here's how past Kaplan students have used their English studies to change their lives and shape their future.

MARITZA MENDES

Brazil – Studied at Adelaide

"Learning English is very important to me since I really want to move to Adelaide and live here long-term. I need to speak English to have a job, be part of society and get a good IELTS score. When I started I was very nervous about writing in English and scared to be in the writing class. Now I'm very happy because I lost that fear. In a few years I hope I'll be working as a chef and an Australian citizen – I want to contribute to this wonderful country."

LOUISA MOUTHON

France – Studied at Huntington Beach

"My Kaplan experience was essential at this period of my life, because I was lost concerning my future. My time here helped me make a very big decision in my life. I applied for a university in San Diego to do a Master's degree. I have been accepted! Before I came here I would never have imagined I could do a Master's abroad!"

STEPHANIE SOSA

Venezuela – Studied at Bournemouth

"I think that the improvement I've had in my English has been noticeable, as I speak more fluently than before Kaplan and I have significantly improved my grammar."

REIMI KUBO

Japan – Studied at Portland

"I've always wanted to study English, and when my husband got relocated to Portland, I took that opportunity to enroll at Kaplan International. When I first arrived my English was very poor. I couldn't speak or understand anything. I'd forgotten everything I learned while in school. Now my grammar is improving, and I can speak more naturally and with greater confidence. English is very important for me as a sportscaster because my dream is to interview Olympic athletes for the 2020 Olympics in Tokyo."

Working with charities, NGOs and universities around the world, we're committed to doing our part in building a better future for everyone.

PROMOTING EQUAL ACCESS TO EDUCATION IN AFRICA

Since 2013, Kaplan has been working with Plan International UK to help deliver better educational opportunities to girls in Sub-Saharan Africa. In Senegal, Kaplan's funding has helped Plan International to support 1,000 girls, aged 9-16, across 16 schools in improving their education. In Sierra Leone, Kaplan is working with Plan International to give 483 young women the chance to become teachers, following guidance by the Forum of African Women Educationalists.

SUSTAINABLE PARTNERSHIPS

We are partnered with four of the seven most sustainable universities in the UK, and nine universities ranked 2:1 or better for sustainability. Our brochures are printed on FSC-certified paper, procured from sustainable resources. FSC certifies forests all over the world to ensure they meet the highest environmental and social standards.

SPONSORSHIP AND PRO-BONO TEACHING

Working with charities such as RefuAid, we have sponsored refugees from Syria and other conflict zones to study English at our schools. We also provide licenses for our online learning materials to groups teaching refugees and asylum seekers.

STUDENT VOLUNTEERING DRIVES

Many of our schools run regular volunteering drives with both local and international charities. This not only benefits people in need, it helps our students build connections within an English-speaking community, and gives them the opportunity to complete an external goal using their growing language skills. We've found this helps them gain confidence and make faster progress – one of the founding principles behind our Real English elective.

REAL ENGLISH

When you start learning a language, you may find it easy to make faster progress. After all, if you knew five words yesterday and ten today, you've doubled your proficiency overnight. But moving from intermediate to advanced can be more difficult. Many students at this level can perform well in the classroom but struggle with real-life conversations. It's easy to get frustrated, feeling that true fluency is as far away as ever.

That's why we developed Real English. Based on the latest research, this specific skills course is designed to take your English out of the classroom and into the real world. Real English is available to all Intensive English students and will help you get beyond the intermediate plateau. Reawaken the excitement you felt when you were mastering your first English words.

PROJECT-BASED LEARNING

You may need English for your career or to achieve your long-term personal goals – but do you need it to get through your plans for today? Research shows that it's extremely difficult to become fluent in a language if it isn't relevant to your daily goals. Your brain is built to filter out non-essential information so you can focus on what you really need.

But when you're part of a team, using English to collaborate on an urgent, exciting task that commands your full attention, you'll find yourself intensely motivated to communicate. New vocabulary and grammar are far easier to remember when you're using them to solve real problems and achieve real results.

SAMPLE TIMETABLE

PROJECT: CREATE AND PUBLISH A SCHOOL NEWSPAPER				
Monday	Tuesday	Wednesday	Thursday	Friday
As a team, you examine a range of real English-language newspapers, building your textual analysis skills as you investigate similarities and differences and explore tone, style, and intent. The teacher helps you with unfamiliar grammar and vocabulary. When the lesson ends, you write up what you've learned in your project diary.	You watch and discuss an online tutorial on project management, building your oral comprehension and your career skills at the same time. You break the project down into tasks and assign roles. Each member of the team has a job to do – editor, writer, researcher. You brainstorm possible stories and draft interview questions.	Time for a little investigative journalism. What's been going on around the school? Working in pairs, you interview fellow-students for stories – in English, of course. In class, you study the language of recent news stories, learning the unwritten rules behind creating attention-grabbing headlines.	In class, you discuss the week's news – the teacher checks your pronunciation and helps clarify the language of current affairs as you go. You and your partner create a headline and write a first draft of your story. The teacher offers you guidance on how to make your headline punchy and dramatic.	You edit your story and create a final draft. You work with your classmates to finish formatting the newspaper in a shared online document, adding captions, bylines and photos. The teacher offers you corrections and advice in real-time online comments. Now it looks like a real newspaper, it'll be printed and distributed around the school!

THAT'S HOW REAL ENGLISH WORKS.

Each week you'll begin a new project – maybe you'll help design an app, make a short film, write a self-help brochure or arrange a charity event. You'll begin to think in English as you use it creatively to express your ideas. And when you're done, the whole school will get to see what your team has accomplished. Knowing your work will be shared with others helps create a sense of meaning and purpose – crucial to retaining the new language elements your teacher will supply along the way.

SKILLS FOR LIFE

Working together in teams, you'll learn more than just great English. We've taken inspiration from the Cambridge Framework for Life Competencies to help you develop the professional and interpersonal skills employers are looking for. You'll learn when to take a leadership role (and when not to!), how to delegate responsibility, how to express an opinion diplomatically, and much more.

CAMBRIDGE FRAMEWORK FOR LIFE COMPETENCIES

Real English sessions are designed in response to the Cambridge Framework for Life Competencies, an initiative under development by the head of ELT research at Cambridge University. It aims to help students thrive in a fast-changing world, and identifies seven competencies as essential to success.

The seven competencies are:

- Collaboration
- Communication
- Critical Thinking
- Creative Thinking
- Emotional Development
- Learning to Learn
- Social Responsibilities

WE TEACH ENGLISH. YOU LIVE IT

When English surrounds you every day, you learn in every moment. It's the tiny things that make studying abroad so special: as you travel to school, grab a coffee with a new friend, or relax each evening, you'll be using your new vocabulary and gaining more – whether you notice it or not. Our dedication to your learning experience doesn't end in the classroom. Our exciting tours and activities and our comfortable accommodation options are designed to help you experience a deeper, richer immersion. Whether you're waking up to breakfast with your friendly hosts, chatting over lunch with your international friends, enjoying a weekend city break or playing volleyball on a local beach, you'll be gaining confidence in English, and building memories that will last a lifetime.

ACCOMMODATION OPTIONS

Where you live while you study will make all the difference to the experience you have, the friends you make, and your sense of comfort and security. We know it's an important part of your decision. Kaplan is committed to finding the highest-quality student residences and homestays — those where you'll feel the most at home.

WHY WOULD I LIKE A STUDENT RESIDENCE?

Living alongside other students is the perfect way to make friends and share ideas and experiences (as well as recipes!) from around the world. Most residences are self-catering, so it will be your choice to cook or eat out at the local restaurants and cafés. You can enjoy your independence as most locations offer options such as residences, apartments, studios, or hostels with a choice of single, twin, or dormitory-style rooms.

JOIN A FRIENDLY INTERNATIONAL COMMUNITY

“

I lived with my classmates in a top-class residence – you always have company and you always have something to do. At the residence you can make friends from all over the world, many who I'm sure I'll see again in the future.

”

Juan Jose, Mexico

WHY WOULD I LIKE A HOMESTAY?

Living in a homestay gives you the chance to practice your English every day in a relaxed atmosphere and enjoy the warmth and comforts of a real home. Your hosts will provide your breakfast and dinner and you will be fully immersed in a new culture. All of our homestays are inspected to ensure they're comfortable and welcoming, and we choose hosts who are well-suited to caring for international students.

SETTLE INTO A REAL ENGLISH-SPEAKING HOME

“

My host family was incredible. They were interested in us, asked questions, we were able to eat with them, and they picked us up after the different outings. They really took care of us and made sure that we felt comfortable. This allowed us to practice our English even more and to improve even quicker. In my opinion, living with a family only has benefits.

”

Chloé Truelle, France

Here's what your day might look like.

7.00-8.00AM

GET STARTED!

Start your day with a nutritious breakfast. If you're living in one of our homestays, you'll be able to practice your English with your host family from the moment you wake up.

In our residence, you'll be able to enjoy some breakfast with your roommates in the communal kitchen and practice English over coffee and toast.

8.00-8.30AM

GO TO SCHOOL

Our homestays can be as little as a 30-45 minute commute, and public transport will be nearby. Travel like a local! It's a true cultural experience.

All Kaplan residences are located close to school and public transport so it should be an easy trip. You may even be able to walk.

8.30-11.45AM

CLASS TIME

We make sure your Kaplan classes are small and focused so you get the best chance to learn and interact with your teachers. You'll have two 90-minute English classes and a short break where you can socialize. Examine fundamental skills like reading and pronunciation.

11.45-12.30PM

LUNCH TIME

You can eat at the school or explore the local restaurants and cafés. It's a good opportunity to practice your listening skills, pick up conversational tips, and learn from the English speakers around you.

12.30-2.00PM

SPECIFIC SKILLS

This is your chance to learn about the subjects that really interest you. Kaplan's Specific Skills classes cover a range of topics such as current affairs, literature, film, and many more.

2.15-3.45PM

STUDY AFTER CLASS

You can study online with *K+ Online* and *K+ Online Extra*, either at the study center at your school, or in your homestay or residence.* In fact they are accessible online, on the move, and all the time.

*In the USA all lab work must be undertaken at the school.

3.45-6.00PM

SOCIALIZE AND EXPLORE

No matter where you study you will always have time to enjoy the city you are in, explore the local surroundings, visit interesting sights nearby, or just go shopping. Take an afternoon trip with your classmates and try out the English you've learned in class.

6.00-7.00PM

DINNER

Back at your homestay you can share a home-cooked meal with your host family and tell them all about your day – in English!

At your residence you can try your hand at cooking, swap recipes with your roommates, or head to one of the many restaurants on your doorstep.

7.00-8.00PM

EVENING ACTIVITIES

There might be a social event organized by the school, or you could just be ready to take it easy and catch up with family and friends back home.

At your homestay you can relax and enjoy all the benefits of a comfortable family home for the evening.

In the residence, you'll have time to chat with your roommates, exchange news, and prepare for another day of amazing experiences.

MIAMI

A flamboyant, fun-loving city of salsa beats, swaying palm trees and ice-cream color buildings

Glittering beaches, bright blue seas and year-round sunshine are tempting enough, but Miami is more than just a great place to sunbathe. PHILADELPHIA

A city built on lofty idealism and working class grit: home to the Liberty Bell and the Philly Cheesesteak

As the first capital of the United States, Philadelphia is full of history. But despite its starring role in the American Revolution, this is a friendly, unpretentious city with a low cost of living. Wander streets built for horses rather than cars; attend a concert beneath the Benjamin Franklin Bridge; or browse the stalls of Reading Terminal Market for an amazing array of crafts and street food.

Our school is in the heart of downtown, close to the monumental City Hall and the colorful Magic Gardens, a labyrinth of mosaic art.

LEARN SPANISH WITH ENFOREX

Every year, Enforex welcomes over 40,000 students of more than 80 nationalities to their schools, and Kaplan International Languages is proud to be offering Spanish courses at four of their schools. We've picked the most popular destinations in Spain, and some of the world's most beautiful cities: Barcelona, Madrid, Málaga and Valencia.

LEARN SPANISH

Spanish is a truly international language. It's the second most widely-spoken language in the world, and the official language of more than 22 countries. As a language of business, politics, literature, music and more, it's no surprise that the demand for learning Spanish has more than doubled in the past 10 years. In 15 years' time, there will be 500 million Spanish speakers in the world – and you could be one of them.

TOP DESTINATIONS IN SPAIN

Barcelona, Madrid, Málaga and Valencia are ideal cities in which to learn Spanish. Whether you want to see the art and famous architecture of Barcelona, or explore the Costa del Sol from Málaga, you'll feel right at home in these Spanish cities. All four Enforex schools have modern interiors, social spaces, welcoming staff, and are accredited by the Instituto Cervantes.

STUDENT-CENTERED

Enforex takes a personalized and student-centered approach to education where both students and professors are actively engaged in the learning environment. Their experienced and motivated professors are trained in different teaching methodologies to respond to the learning needs of each one of their students.

Enforex's class sizes hold an average of six students and a maximum of twelve, which allows for greater in-class participation and interaction. Their diverse faculty is made up of experienced education professionals who have excellent academic qualifications and experience. At Enforex, student success is what motivates the teachers. Weekly cultural classes will take up to a maximum of 15 students per class. You can start classes on any Monday throughout the year.

LEARN AND EXPLORE: EXCITING ACTIVITIES

Enforex organizes a wide variety of activities, so you can explore and get to know your fellow students. From visiting local food markets, strolling through historic streets with a local guide, museums, to dancing and cooking classes, there's always something fun to do outside the classroom.

YOUR PROGRESS

Enforex uses the six classification levels within the European Framework of Reference for Language (CEFR). Before your course begins, you'll take a placement test to assess your language level, and you'll have a graduation test at the end of your course.

A1: BEGINNER

Starting with no knowledge of Spanish, during your Spanish course with us you will start understanding some Spanish, use familiar expressions and very basic phrases aimed at meeting your everyday needs. You will be able to participate in conversations in a basic way and make yourself understood if the other person talks slowly and clearly.

A2: UPPER BEGINNER

You will be able to understand sentences and frequently used expressions related to areas of most immediate relevance in basic daily life situations (for example, basic personal and family information, shopping, local geography, employment). You will learn how to communicate in a simple and direct exchange of information on familiar and routine matters.

B1: INTERMEDIATE

You will be able to deal with most situations likely to arise while traveling in a Spanish speaking country. You will write connected texts on topics which are familiar or of personal interest while describing experiences, events, hopes, and briefly give reasons and explanations as well as partake in habitual communicative situations.

B2: UPPER INTERMEDIATE

You will understand the main ideas of complex texts on both concrete and abstract topics. Interact with a degree of fluency and spontaneity with native speakers. Write clear, detailed text on a wide range of subjects and explain a viewpoint on a given topic. Also, you will be able to bring up a problem in detail, express yourself with arguments and nuances, for example in a working environment.

C1: ADVANCED

You will understand a wide range of demanding, longer texts. You can express yourself fluently and spontaneously and use Spanish flexibly and effectively for social, academic and professional purposes. You can write clear, well-structured text on complex subjects. You will be close to being bilingual.

C2: PROFICIENCY

You easily understand virtually everything heard or read. You can summarize information from different spoken and written sources, reconstructing arguments and accounts in a coherent way. You can be teacher of Spanish in your own country.

INTERNATIONAL ACCREDITATIONS

Our Enforex schools meet the highest standards of excellence and are therefore recognized and accredited by the most respected organizations worldwide, including the Instituto Cervantes. We also offer official university credits for our Intensive Spanish Courses.
