No matter which school students decide to attend, they will be greeted by a helpful and qualified academic team dedicated to making sure their time with us is rewarding and enjoyable.

Because both of our UK schools are accredited by the British Council, and our London school is also inspected by the Independent Schools Inspectorate (ISI), students can be sure of our high standards.

Whether students want to improve their core skills, are looking for exam preparation classes, want to boost their career prospects or need something more bespoke, they will find the right opportunity with us.

An international learning experience

In 2018 we hosted students from 70 individual countries. For our students the learning doesn't stop with English; an international experience means they can learn from one another about different cultures from around the world.

Another benefit of learning in an international environment is that it invites students to practise their skills by using English as a common language. Because our social programme encourages students to make friends, they are given plenty of opportunity to develop their language skills with each other.

Student welfare

We want our students to have a safe and enjoyable stay with us. In all three of our schools, our student services teams are in place to give advice and guidance, and can help with almost any individual enquiry, from advice on what to do at the weekend, to where to find a SIM card.

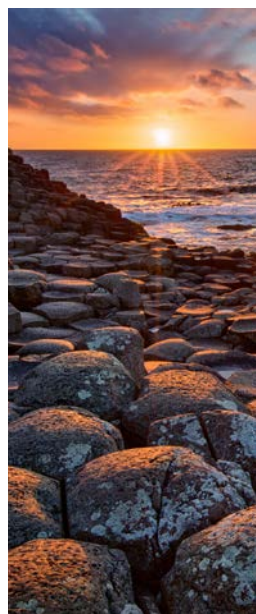

We can provide airport transfers and a Meet and Greet service to make sure our students arrive comfortably, and for those concerned about insurance we can provide medical and travel cover through a licensed partner. We can also help students enjoy their time with us by booking tickets to theatres, events and attractions.

We want our students to be able to develop their skills and to meet their own personal goals. That's why we have a wide range of courses to suit the needs of everyone - from IELTS preparation to specialist tailor-made courses, we're here to help.

Twin's communicative teaching method

Our teachers adopt the communicative teaching method, and wherever we can, we use modern technologies to help students learn as effectively as possible. Focusing on communication allows students to better their everyday English for day-to-day life. We will assess their language ability before they begin their studies to ensure that they are placed in the class that is best suited to their needs.

Student progression

Our teachers provide regular progress reports, personalised assessment and feedback so that students know exactly which areas require extra focus and practice. We give all of our students an end of course report that states their current level, and we also give them a certificate of achievement to take home with them.

Twin e-Learning for continued progression

For up to three months after students have completed their studies, they can continue to practise their English with our online learning platform, Twin e-Learning.*

*Please note, Twin e-Learning is available for individuals only.
