Aloha!

Welcome to Academia Language School!

Founded in 1969, Academia was the first language school in Hawaii. For over 45 years we have been providing the highest quality English language instruction on our beautiful island to students from around the world.

"I have been to other English language schools and I feel Academia is the best because they have the best choice of classes. I can take advanced grammar classes, conversation classes, business classes or even an English + Drama class. Right now I am also taking Academia's Work Practicum class and I am getting working experience while improving my English. Everybody at Academia is extremely friendly too!"

Joyce from Taiwan

"I have been at Academia for over a year now and I think it is a great school. I am now taking pronunciation and grammar. At first I took conversation and listening classes, but my English is improving and so I wanted to take more advanced classes. The school has many classes to choose from. My teachers are very good and very nice. I also love living in Hawaii. I can hike all year round on beaches, in tropical forests and in mountains. I plan to visit Maui and the Big Island soon."

PROGRAMS

At Academia, we help each one of our students design a custom English program that meets their personal goals. We start by working closely with new students to accurately determine their strengths and weaknesses and understand their specific language learning objectives. We then recommend programs of study (schedule of classes) that will enable them to achieve those goals.

Beginner - Basic English

This program is designed to provide students with opportunities to work on fundamentals that are often unavailable at other institutions, such as course offerings dedicated specifically to mastering the difficulties of English pronunciation.

Intermediate - English for Communication

This program is designed to help students develop a high degree of fluency in everyday forms of communication. For example, students are able to take courses that help them expand their knowledge of the idioms and slang that they will encounter in the real world.

Advanced - English for Applied Purposes

This program is designed to help students achieve their individual academic and/or professional goals by providing course offerings in such areas as Work Experience and Test Prep courses such as TOEFL and TOEIC. Academia is the only open test site for TOEIC in the State of Hawaii.

Students in all three programs will find a large number of elective courses that will allow them to pursue their own individual interests. Examples of elective courses include: Reading and Writing, Listening and Speaking, Vocabulary, Pronunciation, Idioms, Business English, Hawaiian Studies, Current Events and Literature.

STUDENTS

"When I started at Academia I could understand English a little bit but was unable to speak very much. I attended English classes in Germany but the teachers there didn't teach us how to speak the language. Academia taught me a lot and now I feel very comfortable having a conversation with people. I can very much recommend studying English at Academia. Staying in Honolulu, Hawaii is fabulous and there are plenty of things to do."

Bastian from Germany

"I've studied English for a long time in Korea though I was still afraid of talking with native people. But I changed after taking classes and I like to speak with them everywhere now. The classes and teachers were very great. I learned a lot in every class. Also I liked school activity. I could meet new people there. I had wonderful memories in Hawaii so I'm planning to study longer next time. All the teachers and staffs were so kind to me. I miss them a lot."

Minjae from Korea

"We love Academia because all the people here are so friendly. We also meet many different cultures here and speak with them in English. Life in Hawaii is wonderful and we feel like we are on vacation every day! We love to swim and we swim every day and then go to class and learn English. Academia is great for us because we can choose to go to classes either in the morning or the afternoon. We can arrange our life with the school, which is very important to us."
